Member of
Microsoft Intelligent
Security Association

Difenda is a global, certified, and accredited cybersecurity company that operates highly-certified cyber command centers. As one of Microsoft's top global implementation partners for Microsoft Sentinel and the other services of the Microsoft Security suite, we provide 24/7/365 threat monitoring and response services that protect cloud services, endpoints, and mission critical infrastructure.

Get more value out of Microsoft Defender for Endpoint with 24/7 threat detection and response services

KEY BENEFITS

Advanced Endpoint Protection 4-step Threat Detection & Response

Difenda's 4-step detection & response process keeps your organization protected from endpoint-based threats. We take an active approach using threat profiling, threat defense, threat hunting, and threat response to monitor day-to-day activity, identify advanced threats, and ensure your organization is following cybersecurity best practices.

Advanced Security Operations Difenda C3 Team

Difenda M-EDR leverages your investment in Microsoft Defender for Endpoint to power the most advanced security operations capabilities commercially available today. This Microsoft-centric model allows Difenda's C3 team to easily monitor and protect Windows, Linux, and macOS endpoints whether physical or in the cloud.

The Value of Visibility Single pane of glass with data-rich dashboards

Difenda Shield delivers a clear and flexible customer experience through the Difenda Shield portal. This provides you with a single pane of glass for all services in the Shield, a CMDB for threat profiling and sharing, real-time threat reports, historical data for audits and compliance, a built-in service request system, and data-rich dashboards.

Dedicated Support Team includes CSM, TAM and Project Management

Every account is assigned a dedicated account team to ensure your outcomes are always in focus. This team includes a Customer Success Manager (CSM), Technical Account Manager (TAM), project management, and regular meetings to discuss planning, reporting, support, and escalations.
